Dowling, of Live Oak, Arc Large Owners.

(Tampa Times.)

As noted in this paper, there were present in this city yesterday two of Live Oak's most prominent business men, Charles H. Brown, president of the Live Oak bank, and Thomas Dow ling, until recently president of the Dowling Lumber company of Live Oak, where they have one mill which alone has a capacity of 160,000 feet of lumber per day. Mr. Dowling recently sold his interest in the company for a large sum.

Messrs. Brown and Dowling had come here from Odessa, where they have large lumber interests. Mr. Dowling is president and Mr. Brown secretary and treasurer of the Gulf Pine company which recently purchased the big lumber plant of Mueller & Lutz, near Odessa. C. H. Tedder of this city is vice-president of the company, the three gentlemen constituting the firm.

In conversation with a Times man, Mr. Brown said the company was making big improvements on its equipment, and was entirely rebuilding the large planing mill. When the present arrangements planned have been completed the mill will have a capacity of 80,000 feet of lumber per day. The mill just now is not turning out much more than one-third this amount, for several law. "Our company is capitalized at Fenholloway, near the sea, \$750,000," said Mr. Brown, "and we have 51,000 acres of round timber to cut. We have tram roads leading into this timber and we are extending them all the time. It is conservatively estimated that our pine timber will cut 200,000,000 feet of lumber, and we have sufficient black cypress to cut an additional 25,000,000 feet. Our plant is situated in a beautiful lake region where the resources of the country are practically undeveloped. bruit Court, Suwannee coun- It is my opinion that with additional transportation facilities, it will be developed rapidly."

Mr. Brown then spoke of Tampa. "You have here," he said, "the finest city in the South. It is a town with a great future. I have recently returned from an extended trip through the southwest, and everywhere I went heard of Tampa. I always called for Tampa cigars, and could find them everywhere. I believe that Tampa is now the largest city in the state and the one that has the greatest future."

He spoke enthusiastically of the future of Tampa as a deep water port. "With the wharf facilities here you should and would handle the bulk of the export lumber business of the state," he said, "and there is much other trade that will find its way through this port when you have deep

Mr. Brown has been a recent investor in improved property in this city ,and he is highly pleased with all at third. After the roof of his investments. He also owns 8,000 acres of virgin land near Thonotosassa, in this county.

are caused by Indigestion. If you eat a little too much, or if you are subject to attacks of Indigestion, you have no doubt had shortness of breath, rapid heart beats, heartburn or palpitation of the heart.

Indigestion causes the stomach to expand - swell, and puff up against the heart. This crowds the heart and interferes with its action, and in the course of time the heart becomes diseased.
